# Santiago Padilla Arcia

Fullstack Developer & Frontend Developer

Montería, Córdoba, Colombia | santiagopadilla117@gmail.com

## Professional Summary

Fullstack Developer with 4+ years of experience building and maintaining web applications using JavaScript and TypeScript across the full stack. Specialized in React, Next.js and modern frontend architectures, with solid backend experience in Node.js, Express and NestJS consuming and designing RESTful APIs. Experienced integrating frontend applications into microservices and micro-frontend architectures, working in Agile/Scrum and Kanban teams, and delivering scalable, maintainable, well-tested code in close collaboration with clients and cross-functional teams.

## Technical Skills

**Languages:** JavaScript, TypeScript, Python
**Frontend:** React, Next.js, Redux, Zustand, React Query, HTML5, CSS3, Material UI (MUI), Bootstrap, Tailwind CSS, shadcn/ui
**Mobile:** React Native, Expo
**Backend:** Node.js, Express, NestJS, REST APIs
**Databases:** MongoDB, MySQL, PostgreSQL
**Cloud & DevOps:** AWS, Docker, Kubernetes, CI/CD
**Architecture:** Microservices, Micro-frontends, Clean/Scalable Architecture
**Tools & Practices:** Git, GitHub, GitLab, Agile, Scrum, Kanban
**Soft Skills:** Communication, Leadership, Adaptability, Flexibility, Responsibility, Teamwork

## Work Experience

**Fullstack Developer** *2026 – Present*
*Freelance – Independent Contractor*

- Maintain, optimize, and evolve client web applications, implementing new features and refactoring existing code to improve stability and performance.
- Design and build new projects from the ground up using modern technologies and best practices to deliver scalable, efficient, and maintainable solutions.
- Identify and resolve production incidents to ensure application reliability.

**React Developer** *2025 – 2026*
*Cognox SAS*

- Owned maintenance, improvement, and optimization of production React web applications.
- Implemented new features and refactored existing code to strengthen long-term maintainability.
- Identified, triaged, and resolved bugs to ensure application stability and a consistent user experience.

**Fullstack Developer** *2022 – 2025*
*Sipremcol SAS*

- Developed and enhanced features for existing applications and built new projects from scratch across the full stack.
- Partnered directly with clients to gather requirements and expectations, translating them into high-quality delivered products.
- Followed clean, scalable architecture practices aligned with modern design standards.

**Junior Developer** *2021 – 2022*
*Draco Servicios*

- Converted visual course designs into functional HTML, CSS, and JavaScript, ensuring an attractive and consistent presentation.
- Implemented interactivity and required functionality for online courses.

## Education

**Systems Engineering (Ingeniería de Sistemas)** *Aug 2018 – Oct 2023*
*Universidad de Córdoba – Montería, Córdoba, Colombia*
